## Professional Summary

ICAEW Chartered Accountant with 4+ years of experience in financial reporting, reconciliation, and audit across Government and Financial Services. Currently working in a service delivery capacity at the High Commission of Malaysia, managing end-to-end financial records, tax payments, and bank reconciliations. Possesses advanced Excel skill and a strong ability to collaborate with non-finance stakeholders. Seeking to leverage strong data analysis and general accounting expertise as an Assistant Management Accountant within the Higher Education sector.

## Work Experience

### High Commission of Malaysia | London, United Kingdom

July 2025 – present

Finance Assistant

- Managed end-to-end general accounting processes, including journal entries and voucher documentation, ensuring robust audit trails and compliance with internal financial standards.
- Executed strict month-end closing procedures and produced detailed financial reports for Headquarters, demonstrating strong time management and attention to detail in a deadline-driven setting.
- Orchestrated high-volume payment runs (utilities, rent, HMRC tax) and staff reimbursements, serving as a trusted partner to colleagues across the organization to ensure timely and accurate settlement of liabilities.
- Led complex monthly bank reconciliations and cash book management, utilizing advanced Excel to analyse data, investigate variances, and ensure 100% accuracy in financial reporting.
- Acted as a key finance contact within a service delivery environment, working collaboratively with non-finance stakeholders to resolve operational issues and support budget management.
- Enforced internal controls in the payment verification and approval process, ensuring all disbursements were fully supported, accurately verified, and approved in line with internal guidelines.

### Ernst & Young PLT | Kuala Lumpur, Malaysia

September 2020 – September 2024

4 years

Senior Audit Associate

- Led statutory audits for major clients in the financial services sector, including commercial banks, asset management companies, and insurance providers, ensuring high-quality financial reporting aligned with IFRS/MFRS standards.
- Acted as a key liaison between EY teams and C-suite client stakeholders, translating complex financial insights into actionable discussions – building trusted relationships and supporting strategic decisions.
- Managed end-to-end audit projects from planning through final reporting, coordinating resources, timelines, and deliverables while maintaining compliance with regulatory frameworks.
- Produced clear, insightful commentary on financial performance, risk areas, and internal control weaknesses – contributing to clients' process improvements and risk mitigation strategies.
- Regularly engaged in cross-functional meetings (with clients, internal teams, and external consultants) to resolve accounting issues, including IFRS 17 first-time implementation for insurance clients.
- Supported internal process enhancements by identifying inefficiencies and suggesting practical, scalable improvements – enhancing delivery speed and audit quality.
- Mentored and supervised junior staff across engagements, fostering their development through coaching on technical work and soft skills.
- Developed strong project management capabilities by juggling multiple assignments with competing deadlines, ensuring deliverables were met on time and within scope.
- Gained exposure to additional industries (manufacturing, property development, shipping) during off-peak secondments, showcasing adaptability and cross-sector learning.
